

Traditional wallpaper

PR-001-27052021

Product description:	Decorative, surface printed wallpaper.
Suitability:	Suitable for most dry indoor wall surfaces, including hardboard and chipboard, plaster, plasterboard and timber. Not suitable for bathrooms or damp environments.
Adhesive:	Starch or cellulose-based adhesive.
Installation temperature:	+18–25C°
Roll length:	10,05 m or 11,2 m
Roll width:	48–54 cm
Paper weight:	120–130 g/m ²
Repeat and match:	Straight, half-drop or no match.
General attributes:	Wallpaper is printed on paper with traditional rotary-printing method. All printing colours are water-soluble, solvent free and or non-toxic distemper paints. They consist of cellulose starch, water, chalk, pigments and tinting pastes. The wallpaper is finished with a light fixative agent, that doesn't form a solid film or coating.
Batch number:	Batch number is marked on roll tag. Slight variations between different batches are possible; please ensure that all batch numbers are the same.
Washability:	Wallpaper is not washable. It can be cleaned only with a soft, dry cloth. Do not use any water or detergents.
Removability:	If the wallpaper should be removed, it can be done by applying water or diluted wallpaper paste on top of the paper. In few minutes the wallpaper can be peeled off.
Environment:	All wallpaper waste can be recycled to other materials or utilized as energy, according to your local recycling legislation.

Hanging instructions

Mix wallpaper paste according to the manufacturer's instructions. We recommend using starch or cellulose based wallpaper powder, with no added glue or plastic. Walls should be prepared properly, creating a smooth and even surface. Measure height of the wall, and cut the length needed, plus 10–15 cm extra with a sharp knife. Apply paste evenly with a paste brush on the back of the wallpaper. Pay special attention to edges, apply thinly and evenly. Make sure that the paste does not end up on the patterned side of the wallpaper. Let wallpaper soak for 1–2 minutes, lift it gently (fold if needed) to the wall, align the pattern and attach gently with a wallpaper brush. Handle wet wallpaper with care, as it is easily damaged. If the paste accidentally ends up on the pattern side of the wallpaper, dab it off quickly with a clean, dry cloth. See further hanging instructions and tips www.tapettitehdas.fi/en/instructions/

How to take care of your wallpapered wall? You can clean the wall lightly with a soft, dry fabric. Do not use water or detergents.

Please note:

Pihlgren and Ritola wallpapers are manufactured using traditional printing technique, high quality unbleached paper and water-based distemper paints. Every batch is unique and has its own, beautifully handmade appearance. Our wallpapers are products of traditional craftsmanship, therefore minor variations in pattern are to be expected. Should you have any concerns about the quality of wallpaper, please contact your retailer.
